The Seminar and the Book that Tells the Real Deal!

BEFORE YOU SAY "I DO" by Gregory A. Dixon

How can you avoid being just another divorce statistic or being married and miserable?

Dr. Neil Clark Warren declares that "of the 90 percent of Americans who marry, 50 percent will divorce. Another 20 to 25 percent will remain married though miserable."

Dr. Myles Munroe states, "A wedding is an event, but a marriage is a life. . . . Where is the wisdom in spending \$500.00 on a wedding dress, \$10,000.00 on a wedding, \$5,000.00 on a reception, but not a single penny on books or counseling or other resources on how to make a marriage?"

Dr. Myles Munroe further states, "Through my many years of premarital and marriage counseling, I have discovered that one of the main causes of problems *after* marriage is the lack of knowledge or inaccurate knowledge *before* marriage. . . . It is much easier to avoid mistakes in the beginning than to correct them in mid-stream."

If you want to have a successful relationship, then you need to learn from the people who have been there and done that. Gregory A. Dixon is a single man who has spent more than 10 years of his life researching and learning the keys to relationship success from his "marriage mentors." In this remarkably thorough, biblically-based book, he also shares valuable dating lessons from his own life so that you can gain priceless knowledge from his positive and negative experiences.

Single people who read this book will learn what it takes to wage and win the war against divorce before entering into marriage, while married couples and counselors will be able to use this book as a powerful resource for personal application or for sharing with others.

Whether you have never been married or are divorced with the hope of being married again, this illuminating book will truly provide you with the accurate knowledge needed for the purpose of building successful relationships.
